

RF Express™ for QAD Enterprise Applications

Product Strengths: Functionality

Advanced Features

- Intelligent prompting
- Table-driven option selection
- Data identifier table
- Customer/supplier cross reference
- Label library
- Pallet inventory functionality
- Industry-specific capabilities
- Integrated security and menu system
- Data prefills
- Multi-language support
- Integrated material locator
- Kanban functionality
- Web-enabled data collection
- Online bar code label printing with QAD data

Product Strengths: Technology

True, online, real-time automated data collection

- No PC middleware, no secondary databases, no secondary server, no CIM process, no ODBC edits
- Plug and go integration with QAD Enterprise Applications
- **All data collection logic resides on host processor: no proprietary code to upload/download**

Industry-standard TCP/IP communications

- No proprietary communications software or hardware needed

Data collection programs written in Progress

- Native language for QAD provides fastest response time
- 100% data validation and putaway through QAD routines
- Architecture identical to QAD Enterprise Applications

Supports:

- UNIX, Linux and Windows Server
- A robust family of automated data collection devices
- Progress and Oracle databases
- .Net UI

Flexibility, scalability

- Transactions can be modified and/or combined to provide greater efficiencies
- 2,000+ standard configurable settings available to modify transactions in minutes
