

## Implementation Methodology

### The Discovery Phase

This important phase of the implementation process includes:

- Define the business goals and scope
- Establish the Project Team
- Uncover any concerns
- Identify any known bottlenecks
- Articulate project objectives
- Address QAD Enterprise Applications implementation specifics
- Complete a site survey.

### The Design Phase

- Identify all data elements
- Perform screen by screen review / plan
- Establish label requirements
- Provide for system security.

### The Implementation Phase

- Install and test the software and hardware
- Set up a Conference Room Pilot
- Testing and training
- User / IT acceptance
- **Go-Live**
- Assess, measure and review.
